

# WHY HATUMA LIME?

(Actual Size)

- ✓ **ESTABLISHED 1932**  
90 YEARS OF INTERGENERATIONAL KNOWLEDGE
- ✓ **POROUS GRAINS**  
STIMULATES SOIL MICROBES FOR ENHANCED BIOLOGICAL ACTIVITY AND NUTRIENT AVAILABILITY
- ✓ **FREE-FLOWING, LOW DUST**  
EASILY SPREAD WITH LARGE, EVEN COVERAGE
- ✓ **CALCIUM SUPPLY**  
AN EXCELLENT SOURCE OF NUTRIENT
- ✓ **THREE GRADES AVAILABLE**  
MORE OPTIONS FOR YOU
- ✓ **82 – 92% CaCO<sub>3</sub>\***  
HIGH NEUTRALISING EFFECT  
\*RANGE ACROSS ALL HATUMA QUARRIES
- ✓ **SOFT SEAMS**  
YOUNG, SOFT LIMESTONE SEAMS MANUFACTURED INTO GRAINS THAT ARE EASILY BROKEN DOWN BY SOIL ACIDITY FOR AGRONOMIC EFFECTIVENESS
- ✓ **3% MOISTURE CONTENT\***  
IDEAL SPREADABILITY  
\*AVERAGE ACROSS ALL HATUMA QUARRIES
- ✓ **YOUR LOCAL HATUMA TERRITORY MANAGER**  
READY TO WORK WITH YOU TO GET THE RESULTS YOU WANT

# CHOOSE HATUMA TODAY

## READILY AVAILABLE NOW

Good supply from Hatuma's large resources

- Local quarries means a low environmental footprint to your gate
- A local business and local farmers supporting each other for 90 years
- Excellent production and supply means cost effective options for you

## HATUMA GENERATE LIME®

Hatuma Generate Lime® is designed to react quicker and is applied lighter than standard agricultural lime, making it ideal for aerial applications. That means you're getting the benefits faster while saving on cartage and spreading costs.

## WE WILL SUPPLY ALL YOUR NUTRIENT REQUIREMENTS

Agronomic effectiveness is enhanced with all required nutrients being applied at the same time, further savings can be made by incorporating Hatuma Generate Lime® with an annual fertiliser application of Hatuma Dicalcic Phosphate® or FuturepHos® and a full range of other nutrients, reducing spreading costs even more i.e. one mix, one pass.

## OPTIONS FOR YOU

All the best farms use lime to maximise nutrient efficiency and stock health. Hatuma has a lime option ready for you to ensure you achieve the results you need.

## AGLIME

Hatuma Agricultural Lime is the product that started it all for Hatuma Lime Company way back in 1932. Historically manufactured to the NZ Department of Agriculture's specifications, the product has particle-sized grains that work instantly as well as last in the soil for up to a 4 year period.

Hatuma Agricultural Lime is available in both GROUNDSPREAD and AERIAL grade products at all sites. Both versions are available from Hatuma's Marton Depot.
